Social Distancing & Continuing Dental Education

The Rutgers School of Dental Medicine, Office of Continuing Dental Education will be holding a number of limited enrollment, live courses in one of our large lecture halls. Following social distancing guidelines, participants will be seated six feet apart, and all food served will be prepackaged.

We will also offer webinar only, and a hybrid of both the live and webinar formats. Visit our website at cde.sdm.rutgers.edu for course information.

Participants must wear masks and will be screened upon entering building. Please note: RSDM does not allow use of masks with an exhalation valve.

FALL 2020
CDE COURSES

FOR DENTISTS AND DENTAL TEAM MEMBERS
CALENDAR

SEPTEMBER 2020

FRIDAY
11

Begin: Rutgers School of Dental Medicine and the American Academy of Implant Dentistry MaxiCourse®

MONDAY
21

The Internet Course: Orofacial Pain Beyond TMD
Begins: Sept. 21, 2020 and ends April 9, 2021
96 credit hours / On-Line

WEDNESDAY
23

Persistent Post Treatment Pain: What do I do when things go wrong?
10 a.m. to 5 p.m. / 6 credit hours

FRIDAY
25

Digital Imaging for Dental Practitioners
10 a.m. to 5 p.m. / 6 credit hours

WEDNESDAY
30

ENDO 101 & ENDO 102 – Tomorrow’s Endodontics
Today, An Evidenced Based Approach
NOAH CHIVIAN, DDS
9 a.m. to 5 p.m. / 6 credit hours

OCTOBER 2020

WEDNESDAY
14

Oral Lesions, Orofacial Pain & Oral Care of the Medically Complex: An Update
ROBERT A. LOWE, DDS, FAGD, FICD
9 a.m. to 5 p.m. / 7 credit hours

FRIDAY
16

“Meth Mouth” – A State of Decay
RONNI BROWN, DDS, MPH
10 a.m. to 1 p.m. / 3 credit hours / On-Line

WEDNESDAY
21

Update in Oral Surgery for the General Practice
10 a.m. to 5 p.m. / 6 credit hours

FRIDAY
23

Heart Disease – Blood Studies – Blood Thinners
9 a.m. to 4 p.m. / 6 credit hours

WEDNESDAY
28

Patient Monitoring for Nitrous Oxide Analgesia Delivery – Recertification for Dental Hygienists & RDA
10 a.m. to 1 p.m. / 3 credit hours

FRIDAY
30

Improving Diagnosis and Treatment with 3D Scanning and Printing in the Contemporary Dental Practice
MAURICIO LA VIE, DMD, MSMD
9 a.m. to 12 p.m. / 3 credit hours / On-Line

NOVEMBER 2020

WEDNESDAY
13

Obstructive Sleep Apnea for Dentists (Day 2)
9 a.m. to 1 p.m. / 4 credit hours / On-Line

FRIDAY
20

Predictable, Profitable Restorative & Aesthetic Procedures:
Less Stress, Better Results & Happier Patients
MARVIN A. FIER, DDS
9 a.m. to 5 p.m. / 7 credit hours

PLEASE NOTE: All In-Person courses will be presented at the Rutgers School of Dental Medicine in Newark.
Check our website for courses that will also be offered as Hybrids – in-person and on-line @ cde.sdm.rutgers.edu
**ANNE L. KOCH, DMD and JOHN GATTI, DDS, MMSc Presents**

**Endodontic Therapy or Placement of an Implant**

This three-hour presentation will address an ongoing conundrum; do I perform endodontic therapy on a tooth or should I extract it and place a dental implant? The goals and successful outcomes of endodontic therapy will be discussed, as well as desired outcomes from successful implant placement.

Included in this presentation will be a dedicated question and answer component. The unique aspect of this presentation is the fact that although both presenters are Endodontists, one is also board certified in implant placement. This will also serve as a precursor to the more extensive hands-on Real World Endo™ – “The Institute Course.”

**LIVE WEBINAR**

**Saturday, October 3, 2020**

10 a.m. to 1 p.m. each day / 3 credit hours

$85 for Dentists

Code: 21D0219W

**The Institute Course**

**2 Day Hands-on Endodontics Workshop**

This is an intense course covering a broad spectrum of topics. We will demystify endodontics, covering everything from logical diagnosis to hydraulic condensation. Our approach is entirely practical and this is an all-inclusive course for the general practitioner. Drs. Koch and Gatti approach endodontic education from a very different perspective; that of a real-world clinician. We will also address the issue of “endo versus implant” from the perspective of an experienced endodontist who is also board certified in implant placement.

For full details visit our website

@ cde.sdm.rutgers.edu

**HANDS-ON WORKSHOP**

**Friday & Saturday, June 4 & 5, 2021**

9 a.m. to 5 p.m. each day / 14 hands-on credit hours

$895 for Dentists

Code: 21D0220

**INTERNET COURSE:**

**Orofacial Pain Beyond TMD**

Begins Sept. 21, 2020 & Ends by April 9, 2021

- $2,495 – Register by Aug. 21, 2020
- $2,595 – Register after Aug. 21, 2020

Earn 96 credit hours upon completion of post-test.

Code: 21D0830

**NANCI DEWHIRST, RDH Presents**

**Dental Infection Control in the Shadow of COVID-19**

Safety recommendations for dentistry considering the COVID-19 pandemic. Standard Precautions and Transmission-based Precautions explained in the context of CDC & ADA Guidelines and OSHA & Dental Board regulations. Options and strategies are presented with extensive question and answer time to address your concerns.

**Topics to be covered:**

- Reflection on improving safety preparedness.

**Upon completion, you should be able to:**

- Recognize and manage bloodborne, contact, droplet and airborne diseases.
- Identify best practices for providing dental care while considering COVID-19.
- Make sense of evolving recommendations as applied to changing infection risk.

**LIVE WEBINAR**

**Wednesday, October 7, 2020**

10 a.m. to 1 p.m. / 3 credit hours

$115 for Dentists / $75 for Hygienists & Assistants

Code: 21D0201W
RONNI BROWN, DMD, MPH Presents

“Meth Mouth – A State of Decay”

In this interactive webinar, discover why methamphetamine is the “hot” street drug and why users will give up their smile for a meth high. Learn how to recognize the oral, physical and behavioral clues of methamphetamine abuse and how to communicate your concerns to your patients. Learn how to treat patients with “meth mouth” effectively and safely and recognize your professional responsibilities and your own personal boundaries in treating the “addicted” patient.

You will learn:

• What methamphetamine is and why it is more addictive than other street drugs.
• Signs of methamphetamine use that are evident during a routine clinical exam.
• Realities of addiction, and discussing substance abuse with patients.
• Dos and don’ts to treat methamphetamine users safely, effectively and with confidence.

LIVE WEBINAR
Friday, October 16, 2020
10 a.m. to 1 p.m. each day / 3 credit hours
$85 for All Registrants
Code: 21D0202W

MAURICIO LAVIE, DMD, MSD Presents

Improving Diagnosis and Treatment with 3D Scanning and Printing in the Contemporary Dental Practice

Once considered toys, 3D technologies have become ever more relevant in today’s contemporary dental practice. 3D scanning and 3D printing technologies have changed the landscape of what is possible. From diagnosis and treatment planning through prototyping and execution of final treatment, 3D technologies can improve our accuracy and efficiency.

Subjects to be covered:

• Intraoral scanning vs tabletop scanning
• Basics of 3D printing
• Facial Scanning
• Scanning of implants, teeth and lips
• Use of superimposition to help diagnose cases
• Basics of CAD design
• 3D printed implant verification jigs/surgical guides
• 3D printed occlusal splints
• 3D scanning for orthodontics/periodontics
• Impression free/model free full arch implant restorative dentistry
• Virtual articulators
• Out-of-the box 3D solutions

LIVE WEBINAR
Friday, October 30, 2020
9 a.m. to 12 noon / 3 credit hours
$105 for Dentists / $75 for Auxiliaries/Residents
Code: 21D0204W

HRSA: Opioid Guidelines/ Pain Medications
On-Demand Webinars

This series uses a standardized, evidence-based opioid addiction prevention curriculum to train and inform New Jersey dentists, dental specialists, and dental professionals on best practices in opioid prescribing, pain management strategies, and referral to medication-assisted treatment (MAT) in compliance with federal and state statutory and regulatory guidelines.

Module 1: Opioid Prescribing Guidelines
Module 2: Overview of Pain
Module 3: Pain Management Strategies

See our website:

Full course outlines available at
cde.sdm.rutgers.edu
NOAH CHIVIAN, DDS, FACD, FICD Presents

ENDO 101 & ENDO 102
Tomorrow’s Endodontics Today
An Evidenced Based Approach

The key to successful Endodontics is a grasp of basic principles of treatment. Meticulous attention to detail in following dictates of the Endodontic Triad — microbial control, cleaning and shaping, and seal of the canal system, is required to achieve this goal. The presentation will examine the scientific principles that provide the foundation for successful root canal therapy.

ENDO 101 presents a philosophy of treatment grounded in these principles, coupled with over fifty years of clinical experience! Today’s technological advances are integrated with these basic principles to achieve endodontic success with more ease, decreased stress, in less time and with greater consistency of achieving favorable results.

ENDO 102 involves establishing a Glide Path, with an M4 reciprocating contra angle. This time honored device decreases hand, wrist, and mental fatigue. If you can establish working length with a #10.02 stainless steel hand file you can clean and shape the canal to ideal proportions with little time and effort. This approach is compatible with rotary instrumentation systems available today. Seal of the canal system, the Endodontic Triad base, will be explored with emphasis on latest technical root canal filling materials.

Objectives:
- Endodontic Triad — the keys to success.
- Mandibular Block Revisited.
- Simplified Rubber Dam Application.
- Five Rules of Access Preparation.
- Crown Down Philosophy and Technique.
- Understanding the Foramen Finder.
- Importance of Irrigation and a look at new systems and devices.
- Glide Path, how it relates to cleaning and shaping.
- Nickel Titanium Rotary File, metallurgy and use.
- Advantages of the Twisted File.
- Sealing the Canal System with Nano technology Gutta Percha and 3D condensation.

Wednesday, September 30, 2020
9 a.m. to 4 p.m. / 6 credit hours
$185 for Dentists / $135 for Auxiliaries/Residents
Code: 21D0601

MARVIN FIER, DDS, FASDA Presents

Predictable, Profitable Restorative & Aesthetic Procedures: Less Stress, Better Results & Happier Patients

In today’s lingering slow economy, it is critical that we practice in a predictable and efficient manner. While the economy is not under our control, how we perform various procedures surely is. Clinicians are constantly challenged to make informed decisions regarding what techniques and materials should be incorporated into their daily practice. New composites, bonding agents, etc. emerge in the market on a regular basis. We can simplify some of the more challenging procedures we do every day.

Diagnosis, treatment planning, case presentations, and how excellent results were obtained, sometimes with less than desirable beginnings will be discussed.

Learning Objectives:
- How to minimize or eliminate post-op sensitivity with new materials.
- How to differentiate between various bonding systems.
- Selecting appropriate matrix systems to ensure predictable contacts.
- Tips for proper shade selection.
- What the benefits are of chameleon composites.
- Finishing and polishing composites to a life-like luster.
- Better ways of motivating patients to accept treatment plans.

You will leave armed with numerous tips and techniques easily incorporated into your clinical practice. Whether you are a seasoned clinician or starting out, this program will be relevant.

Friday, November 20, 2020
9 a.m. to 5 p.m. / 7 credit hours
$195 for Dentists / $155 for Auxiliaries/Residents
Code: 21D0206

Full course outlines available at cde.sdm.rutgers.edu
Persistent Post Treatment Pain: What do I do when things go wrong?

Topics & Objectives:

- Explain pain system for profession and patient.
- Answer the question, “Is chronic pain heritable?”
- Post endodontic, periodontal, and dental implant pain.
- Diagnostic techniques.
- How to explain chronic persistent post-operative pain to the patient.
- Medico-legal issues.
- Pharmacological pearls.

Faculty:

Department of Diagnostic Sciences

Wednesday, September 23, 2020

10 a.m. to 5 p.m. / 6 credit hours

$185 for Dentists • $135 for Auxiliaries/Residents

Code: 21D0802

---

Oral Pathology Update for the General Practitioner

Objectives:

- Be able to develop a differential diagnosis for common oral pathologic lesions.
- Understand techniques for biopsy available including brush biopsy.
- Learn basic techniques of surgical management for oral pathologic lesions.

Topics to be covered:

- Biopsy techniques.
- Epithelial pathology.
- Vesiculo-bullous lesions.
- Odontogenic cysts and tumors.
- Vascular lesions.
- Salivary gland lesions.
- Malignant lesions of the oral cavity.

Faculty:

Department of Oral & Maxillofacial Surgery

Wednesday, October 7, 2020

10 a.m. to 5 p.m. / 6 credit hours

$185 for Dentists • $135 for Auxiliaries/Residents

Code: 21D0912

---

Digital Imaging for Dental Practitioners

Digital Radiology can save time, money, effort and improve flow of information in and outside the office. Patients benefit by decreased dose of ionizing radiation and reduced time to view radiographs. And, no more handling chemicals and cleaning processors.

Digital Photography: A perfect match for modern practices.

High Resolution Scanners and Imaging Software: Convert film-based images to digital formats. Equipment that is key to successfully transitioning into a modern digital office.

Faculty:

Department of Diagnostic Sciences

Friday, September 25, 2020

10 a.m. to 5 p.m. / 6 credit hours

$185 for Dentists • $135 for Auxiliaries/Residents

Code: 21D0803

---

Oral Lesions, Orofacial Pain & Oral Care of the Medically Complex

Oral Lesions Commonly Seen in Dental Practice

- Diagnosing lesions.
- Types of biopsy techniques.
- Treatment.
- Role of dentist in diagnosis and management.

Orofacial Pain: Diagnosis and Management

- Acute and chronic pain.
- Diagnosis of OFP.
- Pharmacology.

Medically Complex Dental Patients

- Medical emergencies.
- Blood studies.
- Blood coagulation.
- Review of main system pathologies.

Faculty:

Department of Diagnostic Sciences, Division of Oral Medicine

Wednesday, October 14, 2020

9 a.m. to 5 p.m. / 7 credit hours

$195 for Dentists • $145 for Auxiliaries/Residents

Code: 21D0806
**Fundamentals of Sleep Medicine and Dental Sleep Medicine**  
**DAY 1**

This 4-hour Webinar will help dentists understand the basics of Sleep medicine and pathophysiology of Sleep Disorders.

**Topics to be covered:**
- History of Sleep Medicine
- Sleep Apnea and Sleep Breathing Disorders: OSA
- Anatomy of OSA
- Sleep Bruxism and Associated Sleep Disorders
- Effect of sleep disorders on oral structures and restorations.

**LIVE WEBINAR**
Friday, October 9, 2020
9 a.m. to 1 p.m. / 4 credit hours
$115 for All Registrants
Code: 21D0818W

---

**Obstructive Sleep Apnea for Dentists**  
**DAY 2**

This 4-hour Webinar will help dentists understand fundamentals of Obstructive Sleep Apnea. Also included is the material for understanding the pathology, clinical features, and modalities of treatment of OSA.

**Topics to be covered:**
- Anatomy of OSA
- Patient Evaluation for Obstructive Sleep Apnea: OSA evaluation; TMJ screening/occlusion
- Dentist’s Role in Sleep Apnea Treatment
- Dental Appliance Treatment for Obstructive Sleep Apnea: A Primer for Restorative Dentists
- Practice Management in Dental Sleep Medicine.

**Faculty:**
DAVIS THOMAS, BDS, DDS, MSD, MscMed  
Department of Diagnostic Sciences  
Division of Orofacial Pain

**LIVE WEBINAR**

**Update in Oral Surgery for the Office-Based General Practice**

Provides a review of commonly performed oral surgery procedures. Emphasis on dentoalveolar surgery, surgical extractions, biopsy techniques and minor pre-prosthetic surgery

**Objectives:**
- Review patient assessment
- Develop treatment protocols
- Review surgical complications and management
- Recognize instrumentation and proper utilization
- Learn surgical techniques involved in exodontias, biopsy and minor pre-prosthetic surgery.

**Topics to be covered:**
- Principles of exodontia/impacted teeth
- Basic pre-prosthetic surgery
- Odontogenic infections
- Surgical management of oral pathologic lesions
- Postoperative patient management and surgical complications.

**Faculty:**
Department of Oral & Maxillofacial Surgery

**Wednesday, October 21, 2020**
10 a.m. to 5 p.m. / 6 credit hours
$185 for Dentists $135 for Auxiliaries/Residents
Code: 21D0913

---

**Patient Monitoring for Nitrous Oxide Analgesia Delivery**

**Recertification for Dental Hygienists & RDA**

This course meets the requirements set forth by the NJ Dental Board to provide 3 hours of didactic training necessary for recertification of a licensed dental hygienist or RDA practicing under direct supervision of a licensed dentist to monitor a patient whom the supervising dentist has administered nitrous oxide/oxygen inhalational anesthesia.

**Wednesday, October 28, 2020**
10 a.m. to 1 p.m. / 3 credit hours
$105 Dental Hygienists & Registered Dental Assistants
Code: 21D0915
Heart Disease – Blood Studies – Blood Thinners
Essential Knowledge for Providing Safe Dental Care

Cardiovascular Disease (CVD) in Dental Patients
• Unique properties of cardiac structure and function.
• Current medical diagnostic procedures for CVD.
• CVD pathologies and current medical care.
• Patient assessment for treatment planning.
• Review current guidelines for endocarditis prophylaxis.

Blood Studies in General Dental Practice
• Importance blood values to better diagnose, treatment plan and avoid problems.
• Reviewing blood.
• Improve communication with medical personnel.

Blood Studies in General Dental Practice
• Hemostasis, hematologic system’s response to injury.
• Guidelines for assessing and managing patients.
• Necessary blood studies for at-risk patients.
• Interpreting blood studies.
• Physician communication.
• Blood thinners: anti-platelet and anti-coagulant.

HAROLD V. COHEN, DDS – Professor Emeritus
Department of Diagnostic Sciences

Looking Ahead to 2021…

INFECTION CONTROL and OSHA: Before, During and After COVID-19

Guest Speaker:
JOHN A. MOLINARI, PhD

Friday, April 16, 2021
9 a.m. to 5 p.m. / 7 credit hours / Code: 21D0203

Integrative Medicine: It’s Not Alternative Anymore

Guest Speaker:
TIERAONA LOW DOG, MD

Wednesday, April 28, 2021
9 a.m. to 5 p.m. / 7 credit hours / Code: 21D0207

Making Composites Fun – Not Frustrating!
Solving Composite Challenges
A HANDS-ON WORKSHOP

Guest Speaker:
DOUGLAS L. LAMBERT, DDS, FACD, FASDA, FICO, ABAD

Friday, April 30, 2021
9 a.m. to 5 p.m. / 7 participation credit hours
Code: 21D0203

SMILE DESIGN, BONDING and ESTHETIC MATERIALS UPDATE
HANDS-ON TOOTH PREPARATION

Guest Speaker:
GERARD J. CHICHE, DDS

Friday, May 21, 2021
9 a.m. to 5 p.m. / 7 participation credit hours
Code: 21D0208

Rutgers School of Dental Medicine and
The American Academy of Implant Dentistry

A Comprehensive Hands-on Training Program
IN IMPLANT DENTISTRY

September 2020 – June 2021

Ten Friday to Sunday Modules
8:00 a.m. to 5:00 p.m. each day
At the Rutgers School of Dental Medicine

Tuition: $15,500 – Register by August 15, 2020
$16,500 – Register after August 15, 2020

This program has been designed to impart the understanding of diagnostic and treatment modalities necessary to properly treat patients who are candidates for dental implant therapy. The 300-hour interdisciplinary approach utilizes case-based learning methodology including lectures, demonstrations, interactive seminars, hands-on sessions, patient treatment, and relevant reviews of literature emphasizing evidence-based clinical approaches.

For details: cde.sdm.rutgers.edu/maxicourse.
REGISTRATION FEE. Includes tuition, registration, handout materials, coffee breaks, lunch for most full-day courses, and other amenities involved in making this a pleasant learning experience. Residents and postdoctoral students must include a letter from their program director verifying status.

CANCELLATIONS & SUBSTITUTIONS. Cancellations received up to two working days before a course are refundable, minus a $35 registration service charge (unless otherwise noted in a course outline) – or you may apply the full registration fee toward a future course within the same academic year. After that, cancellations are subject to the entire registration fee.

SPECIAL NEEDS. RSDM complies with the Americans with Disabilities Act. If you require special services, facilities or dietary considerations (vegetarian or otherwise) to support your participation in this activity, please contact Sherri Wilson at 973-972-6561.

SUNSHINE ACT STATEMENT. In compliance with the Physicians Payment Sunshine Act, the Office of Continuing Dental Education may release participants’ names to applicable manufacturers who at times may provide an educational grant, in-kind and/or technical support for our programs.

PARTICIPANT CREDIT VERIFICATION. All participants are required to sign-in at the start of the course and following lunch. Credit letters will be provided at the End of the day and will not be mailed. Participants arriving late (one-half hour after course begins) or who may need to leave prior to completion will be asked to sign and note their arrival/departure times. Participants should complete the self-reporting section of their credit letters. CDE will adjust the database to reflect the actual number of hours received. The participant’s transcript will reflect actual credit hours if called upon by the State Board to verify attendance.

General Information

CREDIT: The Rutgers School of Dental Medicine (RSDM) is an approved course sponsor by the New Jersey State Board of Dentistry. Our courses, which deal with the scientific or clinical practice of dentistry, professional responsibilities, or ethical obligations of the profession, fulfill Board requirements for dentists’ license renewal. Credit hours are granted on an hour-for-hour basis, provided the course is completed as designed.

RSDM is an ADA CERP Recognized Provider; the current term of acceptance extends to 12/20. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the CE provider or to ADA CERP at www.ada.org/cerp Rutgers is also an Academy of General Dentistry, approved national sponsor for FAGD/MAGD credit.

NOTE: Dental educational institutions are obligated to disseminate new knowledge related to dental practice. In so doing, some presentations may include controversial materials or commercial references. Sponsorship of a continuing dental education course by the Rutgers School of Dental Medicine does not necessarily imply endorsement of a particular philosophy, procedure, or product by this institution. Rutgers School of Dental Medicine reserves the right to modify course content, faculty and meeting locations; and also reserves the right to cancel a program, if necessary.

NOTE: The registered participant grants permission to the Office of Continuing Dental Education (and its designees and agents) to utilize the participant’s image, likeness, actions and/or statements in any live or recorded audio, video, or photographic display for exhibition, publication, or reproduction made of, about, or at an activity without further authorization or compensation.
